### Termination

CBL Licence Agreements may be cancelled at one (1) calendar month's written notice.

### Territories

CBL software is marketed worldwide. In certain territories, CBL reserves the right to offer an Annual licence only. CBL further reserves the right to refuse a product licence.

### Free Trial

Mainframe - 90 Days  
Other Platforms - 30 Days

Software may be downloaded directly from CBL's website <http://www.cbl.com>.  
Unix & PC Workstations are excluded from the Free Trial offer.  
CBL reserves the right to refuse a product trial.

### Licence Fees

**Mainframe:** Software may be licensed on a **Monthly** basis, payable quarterly in advance, or on an **Annual** basis, comprising a 1st year licence fee, followed by a charge of **10%** of the prevailing 1st year fee for 2nd and subsequent years. Machine upgrades may incur additional licence fees. A defined number of user licences for the Windows version of **SELCOPY** is incorporated automatically within **SELCOPY** Mainframe Licence Agreements. **Fixed Term** and **Global Licences** are available upon request (subject to approval).

**AS/400:** Software may be licensed on a **Monthly** basis, payable quarterly in advance, or on an **Annual** basis, comprising a 1st year licence fee, followed by a charge of **15%** of the prevailing 1st year fee for 2nd and subsequent years. Machine upgrades may incur additional licence fees.

**Unix & PC Servers:** Software may be licensed on a **Monthly** basis, payable quarterly in advance, or on an **Annual** basis, comprising a 1st year licence fee, followed by a charge of **15%** of the prevailing 1st year fee for 2nd and subsequent years. Machine upgrades may incur additional licence fees.

**Unix & PC Workstations:** Software may be licensed on Unix or PC workstations on an **Annual** basis only, incurring an annual licence fee payable in advance. A Workstation user licence permits product usage on a minimum of five (5) client or stand-alone IBM PC (or equivalent) machines only. Discount for larger volume workstation licences is built into the workstation price table detailed overleaf.

### Discount

A **50%** discount is applied to 2nd and subsequent mainframe machines utilizing CBL software, using the highest powered licensed machine as the discount base, provided machines are located at the same site, licences are compatible, and that licensing, invoicing and administration is handled from a single location. Where 2nd and subsequent machines receive a **50%** discount based on the highest powered licensed machine, upgrade fees applied to the main machine are also applied at **50%** to 2nd and subsequent machines.

### Subsidiary Usage (Corporate Use)

A single CBL licence reflects product usage for and on the behalf of a single company (legal entity) only, on licensed hardware. Should product usage extend to include use for and on the behalf of wholly owned subsidiary, affiliate, or associate companies, then a surcharge of **100%** is applied to the licence fee (**Corporate Use**).

### Third Party Administration (TPA)

A single CBL licence reflects product usage, for and on the behalf of a single company (legal entity) only, on licensed hardware. Should product usage extend to include the provision of third party administrative (**TPA**) services, then a surcharge of **100%** is applied to the licence fee.

### Service Providers ("Right To Use")

A **50%** "Right to Use" surcharge is applied to the licence fee to permit product usage by a client nominated Service Provider (Facilities Management Agent). The surcharge is incremented by **25%** for each additional client nominated Service Provider. Service Providers utilizing CBL software on behalf of multiple third party clients, are subject to special licensing arrangements. Please contact CBL for information.

### Third Party Use (TPU)

A **50%** "Third Party Use" surcharge is applied to the licence fee to permit product usage by a Third Party User. The surcharge is incremented by **50%** for each additional Third Party User.

### Sub-Capacity Use (Hard-capped/Soft-capped LPARs)

Customers utilizing CBL software in a Sub-Capacity environment within hard-capped or soft-capped Logical Partitions of Restricted Resource (LPAR), are subject to special licensing arrangements. Please contact CBL for information.

### Administration Charge

CBL reserves the right to incorporate an administration charge for preparation and issue of new contract documentation, required as a direct result of changes to client, client company structure and/or scope of use.

### Overdue Accounts

Interest will be applied to overdue accounts.
